Six Massage Techniques

Fascia Rubbing

Drives massage rollers to extend forward by 8CM delivering in-depth massage into the body's meridians and energy channels to bring ultimate relaxation.

Shiatsu

Massage rollers holds pressure onto the meridians and moves straight down along the back to clear up blockages.

Kneading

Caring Kneading performs circular rotation motion and moves in an S pattern along the body to melt the tension away.

Sync

Synchronized kneading & tapping massage down along the back to soothe the tension and keep the vitality of muscles in the back.

Knocking

Massage rollers perform intense knocking massage on specific meridian points straight down along the back to relieve sore and tension.

Tapping

Massage rollers perform rhythm tapping massage to help release muscle tensions and promote the wellness of the body.
